There were 5 scholarships about a number of partial scholarships.
Fairpark's Jarod Hall was an instrumental organizer in this project.

2. April is Fair Housing Month - designed for single income families. 100K from grant comes from sales tax initiative.

3. Recent hail storm caused massive flooding on 800 West, along with property damage. City is likely to get calls about how to prevent this.

4. Micro-grant opportunity for recognized community organizations - to do community outreach projects that cost money - technology, etc. Application is online. \$50-\$1500 grants available. Can include training and conferences. Questions can be forwarded to FCC chair Tom King. (Example would be funding a position for translation services).

 3. RFP - redevelopment agency - study to put permanent public market at The State Fairpark
 4. Folsom Trail - allocated some - more to come
 5. 3rd north bridge \$5million
 6. Single room occupancy complexes (SROs)- changes to continue to provide a wide breadth of options in affordable housing with this SRO option in a way that eliminates negativity about the concept.
 7. Considered a low interest loan of \$7million for a hotel behind Union Pacific Station - council wants to preserve the Union Pacific Station - seems to be underutilized currently. Would also revitalize Gateway as an attraction for downtown and complement to City Creek.
