Q 2 || what do you think is the most important and how would you resolve it

A || home prices, north temple development, homeless and public safety crisis our neighbors don't feel safe. Three year crisis management plan, establish order and safety, help with current trauma of the homeless

Q 3 || house prices are up dramatically, effecting who gets to live here, help maintain diversity

A || Gentrification here is frustrating, our neighborhood is made for blue collar workers, generational wealth, development that comes respects what is here, densifies strategically, neighborhood works is here and ready to help. Data oriented. Home ownership is being wiped out & we need to keep it. Local developers

Richard ---> into asking for support

Q 2 || what do you think is the most important and how would you resolve it

A || getting elected, protecting our environment, shake & bake zone is where building happens, free market solutions for things, sell your house to buy a bigger house, don't treat homeless people horribly

Q 3 || house prices are up dramatically, effecting who gets to live here, help maintain diversity
